

FEF CANADA PURPOSE

To advance education by providing scholarships and financial support to students at the post-secondary level pursuing a career in the metal casting industry in Canada;

To promote and maintain efficiency and high standards of practice in the metal casting industry for the benefit of the public by developing training programs for, and providing funds for the training of, individuals engaged in the foundry industry; and

To advance the public's appreciation of the metal casting industry in Canada, and the career paths available, by providing the public with informational and educational packages and seminars for presentation to students at the public, secondary and post-secondary levels.
